

Sports Premium Expenditure 2019-20

We will plan strategically to further improve PE and sport provision at Beulah Junior School.

This year we will continue with popular football and basketball clubs. We will also continue gymnastic and netball clubs, and introduce two multisports clubs to provide variety in an indoor setting at this time.

We aim to ensure the whole school has access to enriching sporting activities both during and outside the school day the lower school multiskills club will continue as an offer to encourage lower school members to explore their potential in a range of areas

We aim to increase both the numbers of children who engage and the range sports on offer in our school.

Improving Pupil Participation in PE

Continue:

- Year 3&4, Year 5&6 football clubs throughout the year
- Year 5& 6 Basketball clubs Spring and Summer terms
- Continue multiskills clubs for year 3 and 4 pupils
- Continue netball club for year 5 and 6 pupils
- Continue gym classes for pupils

Introduce 2019-20

Lunchtime multisport clubs for both upper and lower school pupils A maximum of 20 pupils in each group to be reviewed termly of half termly

Improving the quality of teaching in PE both in lessons and for enrichment activities

- PE Instructor to attend co-ordinator meeting with a view to disseminating information to staff
- Train instructor to be more competent and confident in delivery of a wider range of sports to NVQ L3
- Additional sessions for year 3 and 6 to ensure water safety and swimming instruction is delivered

Contingency for transport and additional equipment	£4000	Total 18 920

Evaluation of Expenditure of Sport Premium Grant for 2019-2020

Instructor Training Course NVQ L3 This was completed by a member of staff, but was not paid for from the Sport Premium Grant.

Football clubs This club drew a lot of interest was always fully subscribed and enable pupils to practise their skills with an end objective of participating in local competitive activities.

Children worked inclusively and developing team building skills in a variety of permutations regardless of their ability and eventual participation in the school football team or not.

Achievement at local level was good with the school team achieving a higher ranking than the previous year. The success of this club helped raised the profile of this sport even further across the school. **Continue**

Basketball club The skill pupils acquired during club session enabled them to confidently practise independently during break times. There was an increased grasp of the rudiments of the sport especially in the upper school which allowed pupils to enthusiastically organise themselves, practise and participate informally as an extension to the structured work in clubs **Continue**

Multiskills clubs These were quite well attended. More exploratory work needs to be carried out to find the most popular activities that will attract more pupils to participate in this type of activity. Being younger and less independent were pupils' attendance was sometimes related to parent availability. The school will investigate its resources to see whether it can hold session for pupils during school hours next year **Continue and Develop**

Netball club This club was well received by those who attended. It was run in the hope of attracting girls (who are generally less active than boys in our school). Success was limited but the school will continue using a different coaching provider with approaches more tailored to the age group we have on roll **Continue**

Gym Club This was a resounding success children received formal teaching which helped them to channel their enthusiasm and direct their interest in performance and competition into displaying their learning for a small audience at the end of term **Continue and Develop**

In addition to the statutory **swimming** lessons that children have received this year, the school has been able to provide extra lessons to those children in Year 3 who had not achieve the targets set for the end of their swimming programme. We will train a TA to become a coach so that more pupils may benefit and effective professional development of staff is begun. **Continue and Develop**

Unfortunately, the school does not hold data for the achievement of year 6 swimmers due to the non-attendance due to the national pandemic which has resulted in session being curtailed.

Equipment The school purchased a substantial amount with the sports grant this year. This has assisted in conveying the active ethos that the school promotes during break time. Some of the equipment has served pupils well during PE and Sport lessons #We will continue to stock and replenish as required.

Contingency Unused due to the Pandemic Total £10,500 approx

Transport fund	£4000
Special Events fund e.g Pro Kick	£200
Sports Day fund	£400
Swimming Fund	£200
Local match liaison organisation (netball)	£200
Various Clubs	£1000
Equipment	£1500
